LADIES' FANCY WAIST. Pattern for a Bodice of Hemstitched Silk.

Hemstitched silks are among the season's most exclusive novelties. They come in all the delicate shades with the stitching done in a darker tone of the same color, or white. The waist illustrated is made of violet panne and heavy Russian laca.

It is mounted on a glove-fitting lining, which closes in the center front, the seams and darts being featherboned. The silk is shaped with shoulder and under-arm seams only, the back fitting smoothly, with slight fullness at the waist arranged in tiny plaits.

It is faced with lace to a shallow yoke depth.

The front plastron is permanently attached to the right lining front and closes invisibly on the left side. The full fronts are trimmed with bands of panne and a rolling collar of the same fabric outlines the yoke back and front.
